

The following is a brief description of our planned professional learning work for October 10. This work is organized around our district's four collective goals:

- All students shall read, write, and communicate at grade level in both languages of instruction.
- All students shall be at grade level in numeracy.
- All students and staff will feel safe, cared for, and engaged in learning.
- All students shall graduate from high school.

School staff will monitor the impact of their work from October 10, and on subsequent professional learning days, in achieving these goals.

Literacy

- Teachers will be learning from District officials, how to implement, through a book study, high yielding scaffolding strategies that will increase student achievement.

Numeracy

- Teachers will be learning from District officials as well as other numeracy teachers from different to schools in developing their instructional practices in their daily lessons but also during their Tier 2 intervention WIN block. Middle School numeracy teachers will also be learning how to implement cross-curricular strategies to meet science and math outcomes.

Safe, Cared For, and Engaged

- Teachers will collaborate and plan with their PLC teams where they will discuss how to integrate literacy and numeracy into their specialty lessons (art, music, tech, and gym).

Graduation

- ESS team will be reviewing students to ensure they are on the appropriate educational plan. This includes reviewing students who are performing below grade level expectations and to work on strategies to support tier one and two practices.
